

Due to the COVID-19 pandemic, supplies will not be shared. For the safety of our students, our awesome PTO has purchased shoe boxes we have already named a Toolbox.

(School supplies already purchased from the regular school supply list may be used to assemble most of this kit)

- All items should be placed in their Toolbox and stored in their regular classroom.
- The Toolbox will be made from student's classroom school supplies + a few extra items that we asked parents to provide. (details below)
- We have requested parents to purchase extra supplies.

It would be a huge help if you could communicate with parents about these supplies, especially the extra items they're being asked to purchase.

THANK YOU so much for your support on this! I know that this is not ideal for any of us, but together we can establish a routine/procedure that works best for our kids!
