Dear Smithville School District patron,

Research and experience shows that schools can be powerful places to make behavioral and environmental changes for students and staff. To make our school environment healthier, our school is forming a District Wellness Committee. The purpose of the committee is to bring together representatives from the school and community who can help us address issues facing the health and well-being of our children, youth and adult staff.

As a community member and parent, your input is particularly important and we would like to have you as a District Wellness Committee member. We understand that your time is valuable and we want you to know we are committed to establishing policies and programs that will positively affect the health of our students and school staff.

We anticipate holding one meeting per semester (November & February) during the school year. Your responsibilities as a member of the District Wellness Committee would be to collaborate and provide input to the Wellness Program Coordinators for compliance and assessment of the District wellness policy goals and objectives

We hope you will accept our invitation and join the Smithville R-II School District Wellness Committee.

Sincerely,

Kim Davis

Kim Davis
Coordinator of Benefits & Wellness
